

Century Software scoop top honours at Sage Circle of Excellence Awards

November 2008. Local software company Century Software, who are based in the West Midlands, was honoured at the third Sage Circle of Excellence awards ceremony held in Newcastle last week.

Sage, a leading provider of business software and services, introduced the concept of a Circle of Excellence four years ago in order to recognise and reward the Business Partners who provide outstanding customer service and whose customers are the most likely to recommend them to friends and colleagues.

On presenting the award to Century Software, Paul Stobart, CEO, UK and Ireland Region, Sage (UK) Limited, states, "I'm delighted to present this award to Century Software. Today's competitive climate means that it is more important than ever for UK Businesses to stay close to their customers and deliver an outstanding service, so my congratulations go to all involved."

Notes to Editors

The Circle of Excellence Awards are judged using independent research conducted with a representative sample of the Business Partner's customers.
